LETTER OF TRANSMITTAL.

U. S. DEPARTMENT OF AGRICULTURE,
BUREAU OF STATISTICS,
Washington, D. C., August 20, 1907.

SIR: I have the honor to inform you that, under my supervision, there has been completed in this Bureau a compilation of the statistics collected and published annually by this Department since the close of the civil war relating to the crops of corn, wheat, oats, barley, rye, buckwheat, potatoes, and hay, and the number of farm animals in the different States and Territories.

The primary object of this work has been to epitomize, in as complete and useful a form as possible, the final results of all comprehensive statistical investigations relating to the productions named above which have been made since its organization in 1862 by that branch of the Department now known as the Bureau of Statistics.

The issuance of these statistics in the form in which they have been assembled will, it is believed, serve a useful purpose. It will satisfy, to some extent, the constantly increasing demand for data concerning agricultural production, and will relieve this Bureau of the labor of compiling figures in response to individual requests.

I therefore recommend the publication of these statistics in bulletin form, one bulletin to be devoted to each of the crops specified, and one to live stock.

The data herewith submitted for publication as Bulletin 63 of this Bureau relate to hay.

Very respectfully,

C. C. CLARK,
Acting Chief of Bureau.

HON. JAMES WILSON,
Secretary of Agriculture.
